

WHITE SHARK

BORS
BT/WIRELESS GAMING MOUSE

User manual

Special On/Off Function:

- Slide the switch up to 2.4G mode.
- The middle switch is for OFF.
- Slide the switch down to BT mode.

EN-1

Connection Methods:

1. Wired Connection:

- Connect the mouse's USB cable to the computer's USB port.
- Plug the Type-C port into the mouse for direct use.

Note: No matter the mode switch is in any position, after put in the TYPE-C cable, it automatically switches to the wired mode.

2. 2.4G Wireless Connection:

- Insert the 2.4G receiver into the computer.
- Set the mode switch to 2.4G.

Note:

1. Put the power switch to "2.4G", then mouse starts to work (2.4G receiver has paired with the factory default).
2. If the 2.4G does not work, you can repairing it by following these steps.
 - a) 2.4G pairing only supports PC software pairing.
 - b) Switch to 2.4G, press and hold the Pairing button for 3s, the indicator light will flash rapidly enter to pairing mode, insert the receiver.
 - c) The mode indicator light remains on for 3 seconds to indicate a successful connection.

3. Bluetooth (BT) Connection:

- Switch to BT mode.
- Enable Bluetooth discovery on your device and select "BORS".
- BT Channel Switch: Press the BT pairing button to toggle between BT1/BT2.

Note:

BT pairing: In BT mode, press and hold the Pairing button for 3s to enter the Bluetooth search mode. The bottom Bluetooth mode indicator light will flash rapidly, select "BORS" to connect. The mode indicator light remains on for 3 seconds to indicate a successful connection.

EN-2

DPI setting and Indicator:

1. DPI levels:
800 red - 1600 green (default) - 3200 blue - 4800 yellow - 6400 cyan - 12000 purple
2. Press the DPI button and the DPI indicator light on the mouse will turn on.

Note:

DPI levels can be adjusted by the software.

Battery Management:

- The voltage is below 3.3 V, the mouse automatically power off.
- During charging, the charging voltage is 5 V and the indicator red light remains on constantly. The maximum charging current is less than 250 mA.
- Charging Status: around 1.5~2 hours for full charge. Once fully charged, the indicator green light will go on.
- Low battery: If there are pauses or if the cursor movement is not smooth, it indicates that the lithium battery is low on power and needs to be charged.

Note: It is prohibited to use high-power mobile phone fast charging to charge the mouse.

This may cause the charging IC to burn out. It is recommended to use the included charging cable and an ordinary charging head with a power of 5 A or below to charge the product.

Sleep Mode:

- After 1 minute of inactivity, the mouse enters sleep mode and activate with a movement.
- After 10 minutes of inactivity, the mouse enters sleep mode and can be awakened by pressing the button.

Note: In the MAC system mode, when the computer is in sleep mode, the mouse can be awakened by moving it after 1 minute of inactivity. If it is less than 1 minute, the button needs to be pressed to wake it up.

EN-3

Warnings and Safeguards

1. Don't expose these products to humidity, water, or any other liquid.
2. Don't expose to extremely hot or extremely cold temperatures/conditions.
3. Don't operate if the unit has become wet or moist. The unit is not waterproof or water-resistant.
4. Don't damage the USB power cord by bending, twisting pulling, or heating it.
5. Don't use harsh chemicals (such as benzene, thinners, etc.) or detergents to clean your products.
6. Never attempt to disassemble or modify your products in any way or use with incompatible computers. Doing so violates any warranty in place and may cause permanent damage to the unit.

System Requirements

Win XP / Win 7 / Win 8 / Win 10 / Win 11 / or above operating system.

WARRANTY CARD / JAMSTVENI LIST

ITEM/MODEL: Naziv/model proizvoda:	
RECEIPT NO. / DATE OF PURCHASE: Broj i datum računa:	
SELLING SPOT (COMPANY): Prodajno mjesto:	
THE CUSTOMER: Kupac:	
WARRANTY PERIOD (MONTHS): Jamstveni rok (Mjeseci):	36 SIGNATURE / STAMP: Potpis i pečat:

All White Shark products are examined and tested after each stage of the production process and have all the required certificates (EMC, CE, ...). The products are subject to the following warranty conditions: • The warranty period for White Shark products is 36 months (on batteries 6 months) and begins on the day of being sold in the store. • The warranty can only be claimed upon presentation of the original purchase invoice and a filed warranty paper with a stamp from the store it was bought at, and if the product has original packaging and all components and equipment. • All malfunctioning of the product resulting from factory defects, that occur during the warranty period, and in the normal use of the product in compliance with all instructions will be removed. This warranty covers only defects in material and production. • If the product malfunctions during the warranty period, your White Shark distributor will give you the product (after which is checked by a professional) repaired or replaced. • If the repair at the authorized service center is not completed within 30 days of being received at the service center, we will replace the product with a new one. If the repair during the warranty period lasts longer than 15 days, the warranty period is extended by as many days as the repair lasted. • If the device needs to be repaired within the warranty period, contact the store where you bought the product. If the product has to be sent to an authorized service center or general distributor, please send the product (with all parts and accessories) in the original packaging and with all the necessary documents (invoice, warranty card, etc.). The product can be repaired only in the authorized service center of the importer. The costs of shipping the product to the service center are funded by the customer. Possible damage to the product that can occur during transport is at the expense and risk of the buyer. Sending the product from the service center to the customer is funded by the service technician/the importer. This warranty does NOT cover: • Damage or malfunctions that would occur as a result of incorrect connection, incorrect polarization, incorrect battery placement, etc. • Defects caused by improper handling of products, use of parts or equipment that is not prescribed by our specifications, unauthorized product modification, and defects mechanical damage to the product. • Defects that can occur due to product fall, use of force, natural disasters (flood, fire, thunder, earthquake, ...), due to battery leakage, due to unstable 220V voltage, frequent variations and/or power outages, etc. • Damage caused during transport to the customer. • Products that have been opened or repaired by an unauthorized person. • Parts that are considered consumables such as batteries, etc.

Svi White Shark proizvodi su provjereni i testirani nakon svake faze proizvodnog procesa te imaju sve potrebne certifikate (EMC, CE, ...) te podliježu sljedećim jamstvenim uvjetima: • Jamstveni rok na White Shark proizvode je 36 mjeseci (na baterije 6 m) i počinje teći danom prodaje u trgovini. • Jamstvo se može ostvariti samo uz predložene originalnog računa o kupnji i uredno popunjenoj jamstvenoj listi. • sa sigurno trgovine, te ako proizvod ima originalnu ambalažu i sve sastavne dijelove i opremu. • Svi nedostaci i kvarovi koji su posljedica tvorničkih grešaka i koji su nastali u jamstvenom roku i pri normalnoj uporabi proizvoda i pri poštivanju svih naputaka će biti otklonjeni. Ovo jamstvo obuhvaća samo greške nastale u materijalu i izradi. • Ako se proizvod pokvari tijekom jamstvenog roka, Vaš White Shark distributer će vam proizvod popraviti ili zamijeniti nakon što ga provjeri stručna osoba. • Ako popravak u ovlaštenom servisu nije izvršen u roku 30 dana od primitka u servis, proizvod ćemo zamijeniti novim. U slučaju da popravak u jamstvenom roku traje duže od 15 dana, jamstveni rok se produžuje za onoliko dana koliko je popravak trajao. • Ako se ukaze potreba popravka uređaja u jamstvenom roku, kontaktirajte trgovinu u kojoj ste proizvod i kupili. Ako proizvod treba poslati ovlaštenom servisu ili generalnom distributeru, molimo Vas da kompletan proizvod (sa svim dijelovima i opremom) bude zapakiran u originalnu ambalažu te da priložite sve potrebne dokumente (račun i ovjereni jamstveni list). Popravak aparata vrši se isključivo u ovlaštenom servisu uzvokna. Troškove prijave proizvoda na servis snosi kupac. • Kupac preuzima rizik za moguća oštećenja tijekom prijave. Slanje proizvoda u servis do kupca snosi servisi. • Oštećenja ili kvarove koji su nastali. Ovo jamstvo NE obuhvaća: • Oštećenja ili kvarove koji su nastali kao posljedica nepravilnog priključivanja, krive polarizacije, pogrešnog stavljanja baterija i sl. • Kvarove nastale zbog nepropisnog rukovanja proizvodom, korištenja dijelova ili opreme koja nije propisana našim specifikacijama, neodržavanje i neodržavanje proizvodnog lista. • Oštećenja ili kvarove koji mogu nastati uslijed pada proizvoda, uporabe sile, više sile tj. elementarnih nepogoda (poplava, požar, grom, potres, ...), uslijed curenja baterije, uslijed nestabilnog 220V napona, čestih varijacija i/ili nestanka struje i sl. • Oštećenja nastala pri prijavi proizvoda do kupca. • Proizvod koji je otvoren i/ili popravljen od strane neovlaštene osobe. • Dijelove koji se smatraju potrošnim kao što su baterije i sl.

HR-4

WHITE SHARK

BORS
BT/WIRELESS GAMING MOUSE

Upute

Posebna funkcija uključivanja/isključivanja (On/Off):

- Pomaknite prekidač prema gore na 2.4G način rada.
- Srednji položaj prekidača služi za OFF (isključeno).
- Pomaknite prekidač prema dolje na BT način rada.

HR-1

Načini povezivanja:

1. Žično povezivanje:

- Spojite USB kabel miša na USB priključak računala.
- Umetnite Type-C priključak u miš za izravno korištenje.

Napomena: Bez obzira na položaj prekidača načina rada, nakon umetanja TYPE-C kabela miš se automatski prebacuje u žični način rada.

2. 2.4G bežično povezivanje:

- Umetnite 2.4G prijemnik u računalo.
- Postavite prekidač načina rada na 2.4G.

Napomena:

1. Postavite prekidač napajanja na „2.4G“, zatim miš počinje raditi (2.4G prijemnik je uparen prema tvorničkim postavkama).

2. Ako 2.4G ne radi, možete ga ponovno upariti sljedeći ove korake:

- a) 2.4G uparivanje podržava samo uparivanje putem PC softvera.
- b) Prebacite na 2.4G, pritisnite i držite tipku za uparivanje 3 sekunde, indikator će brzo treperiti i ući u način uparivanja, zatim umetnite prijemnik.
- c) Indikatorsko svjetlo načina rada ostat će uključeno 3 sekunde kako bi označilo uspješno povezivanje.

3. Bluetooth (BT) povezivanje:

- Prebacite na BT način rada.
- Uključite Bluetooth pretraživanje na svom uređaju i odaberite „BORS“.
- Prekidač BT kanala: Pritisnite tipku za BT uparivanje za prebacivanje između BT1 / BT2.

Napomena:

BT uparivanje: U BT načinu rada pritisnite i držite tipku za uparivanje 3 sekunde kako biste ušli u Bluetooth način pretraživanja. Donje indikatorsko svjetlo Bluetooth načina rada brzo će treperiti; odaberite „BORS“ za povezivanje. Indikatorsko svjetlo načina rada ostat će uključeno 3 sekunde kako bi označilo uspješno povezivanje.

HR-2

Postavke DPI-ja i indikator:

1. Razine DPI-ja:
800 crvena – 1600 zelena (zadano) – 3200 plava – 4800 žuta – 6400 cijan – 12000 ljubičasta
2. Pritisnite DPI tipku i DPI indikatorsko svjetlo na mišu će se uključiti.

Napomena:

Razine DPI-ja mogu se podesiti putem softvera.

Upravljanje baterijom:

- Kada je napon ispod 3.3 V, miš se automatski isključuje.
- Tijekom punjenja, napon punjenja je 5 V i crveno indikatorsko svjetlo stalno svijetli. Maksimalna struja punjenja manja je od 250 mA.
- Status punjenja: približno 1.5 – 2 sata za potpuno punjenje. Nakon potpunog punjenja uključuje se zeleno indikatorsko svjetlo.
- Niska razina baterije: Ako dolazi do prekida ili ako pomicanje pokazivača nije glatko, to ukazuje da je litijaska baterija slaba i da je potrebno punjenje.

Napomena:

Zabranjeno je koristiti brzo punjenje mobilnih telefona velike snage za punjenje miša. To može uzrokovati izgaranje IC-a za punjenje. Preporučuje se koristiti priloženi kabel za punjenje i obični punjač snage 5 A ili manje za punjenje proizvoda.

Način mirovanja (Sleep Mode):

- Nakon 1 minute neaktivnosti, miš ulazi u način mirovanja i aktivira se pomicanjem.
- Nakon 10 minuta neaktivnosti, miš ulazi u način mirovanja i može se probuditi pritiskom tipke.

Napomena: U MAC načinu rada, kada je računalo u stanju mirovanja, miš se može probuditi pomicanjem nakon 1 minute neaktivnosti. Ako je prošlo manje od 1 minute, potrebno je pritisnuti tipku kako bi se probudilo.

HR-3

Upozorenja i mjere zaštite:

1. Ne izlažite proizvod vlazi, vodi ili bilo kojoj drugoj tekućini.
2. Ne izlažite proizvod ekstremno visokim ili ekstremno niskim temperaturama/uvjetima.
3. Ne koristite proizvod ako je postao mokar ili vlažan. Proizvod nije vodootporan niti otporan na vlagu.
4. Ne oštećujte USB kabel savijanjem, uvijanjem, povlačenjem ili zagrijavanjem.
5. Ne koristite jake kemikalije (kao što su benzen, razrjeđivači itd.) ili deterdžente za čišćenje proizvoda.
6. Nikada ne pokušavajte rastavljati ili modificirati proizvod niti ga koristiti s nekompatibilnim računalima. Time se krši jamstvo i može doći do trajnog oštećenja uređaja.

Zahtjevi sustava:

Operativni sustavi Win XP / Win 7 / Win 8 / Win 10 / Win 11 ili noviji.
